Research Infrastructures - stakeholder responsibilities

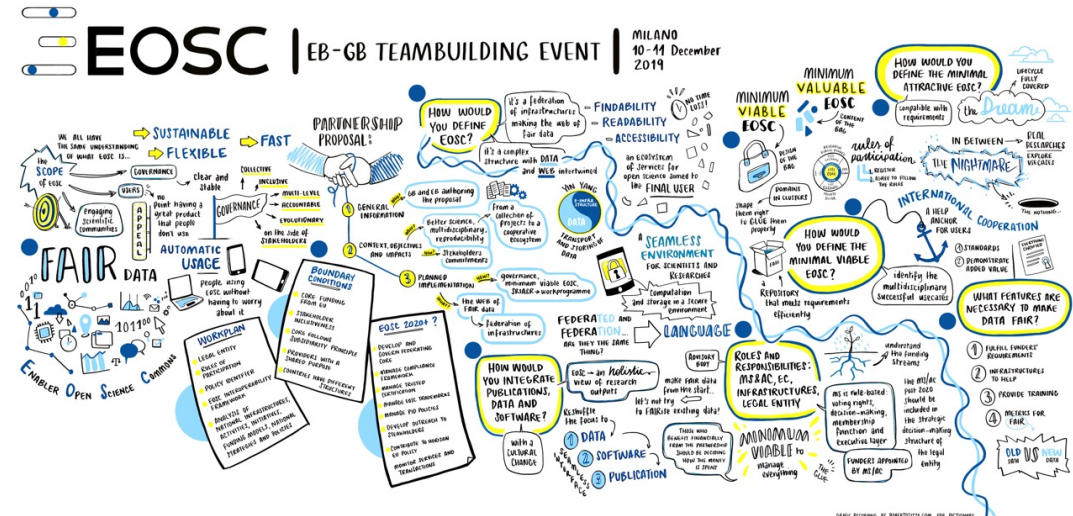

Hungary participation in International Cooperations

Source: [NKFIH](#)

- Governance Board – Delegated experts from
Member States and associated countries
In Hungary: János Mohácsi (KIFÜ)

EOSC working groups until 2020

EOSC RoP

Executive Board Working Group

EOSC FAIR

Executive Board Working Group

Hungarian member: Holl András – MTA KIK

EOSC Architecture

Executive Board Working Group

Hungarian member: Micsik András - SZTAKI

EOSC Landscape

Executive Board Working Group

Hungarian member: Szeberényi Imre - BME

EOSC Sustainability

Executive Board Working Group

Hungarian member: Máray Tamás, earlier Bálint Lajos

EOSC Skills & Training

Executive Board Working Group

Hungarian member: Fazekas-Parragh⁷ Judit – DE

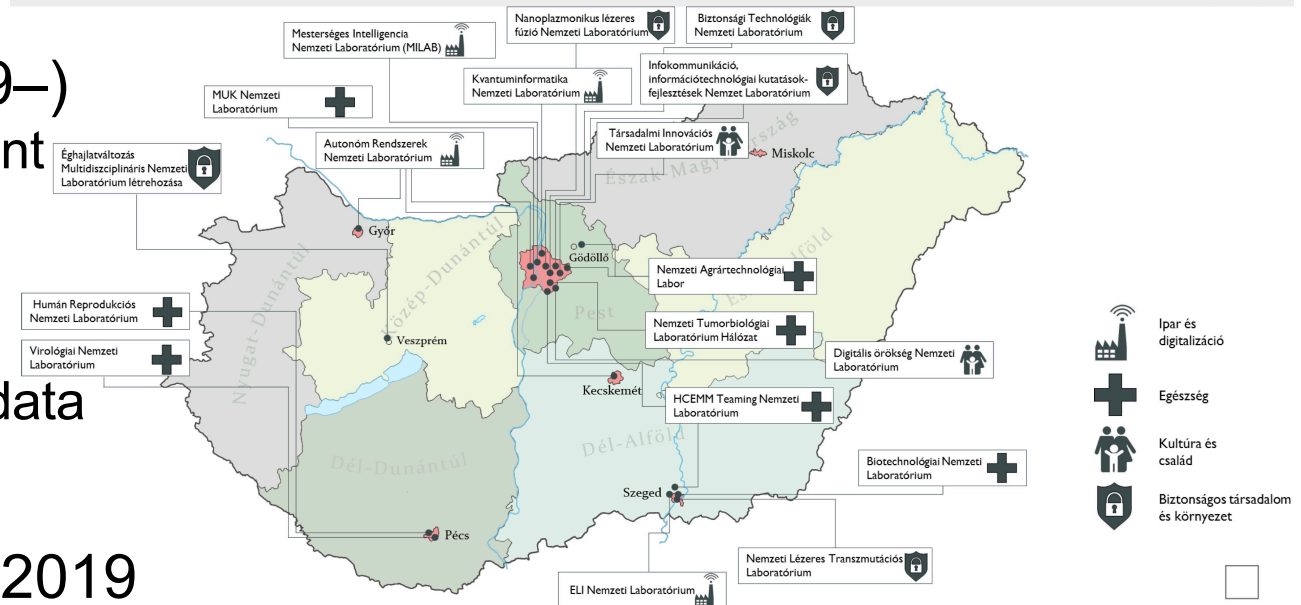

- **Act LXXVI of 1999 on Copyright**
 - Libraries and public collections are required to digitise any items in their collection and display them to individual members of the public.
- **Act CCIV of 2011 on National Higher Education amended in 2013**
 - Mandates open access to doctoral dissertations.
 - Doctoral dissertations and their abstracts are to be publicly available for all, without restrictions, in both electronic and printed format in the institutional repository and in the library of the awarding institution.
 - Many universities provide open access also for BSC and MSC thesis

- NRDl Office introduced an Open Access mandate in 2014
 - The obligation to make publications open access is integrated into the text of the Grant Agreements
 - The Grant agreement states that it is the responsibility of the project leader to provide open access to publications funded by NRDl Fund.
 - Approximately 2.5 % of the funding for all research projects is dedicated to open access costs.
- NRDl Office introduced a requirement for RDM plans in 2020
 - RDM plan should be submitted as part of the project proposal (first OTKA, other calls later)
 - Aligned with Horizon2020 and later Horizon Europe

- Hungary early partner building e-Infrastructures.
 - research networking started in the late 80's - one of the first European NREN in the region
 - founding members and early users of the GÉANT infrastructure, and also grids, multimedia, HPC (including PRACE and EuroHPC) and storage, clouds, virtual environments, etc.
 - Projects (series of GEANT and in country 1998-) to provide Access/Networking and AAI to all research infrastructures in Hungary
 - Early participation in OpenAIRE e-infrastructures (2009-) – establishment of NOAD in Hungary
- HUNOR - HUNGarian Open Repositories association
 - to advance national open access practices, promote open access
- Several repositories (REAL, Videotorium etc.) and common repository search tools (OAkereso)

- HRDA - Hungarian Research Data Alliance (2019-)
 - To develop and support the Hungarian RDM community
- Establishment of ELKH (2019–)
 - Optimise research, development and innovation
- Establishment of National Laboratories (2020–)
 - expected to support research data managements and industrial exploitations and innovations
- EOSC project participations (2019–)
- NOSCI forum initiative (2021-)

NEMZETI LABORATÓRIUMOK

Regional/thematic 05b projects

FAIR 05c projects

Other FAIR projects

ESFRI cluster 04 projects

Other scientific project to support EOSC

Support

General (some partial EOSC)

Other Data economy

EOSC development

EOSC projects and Hungarian participation

“Data scientists are kind of like the new Renaissance folks, because data science is inherently multidisciplinary.”
— **John W. Foreman**

János Mohacsi
